(54) **TAPE FOR LABEL WRITER**

(57) Abstract:

PROBLEM TO BE SOLVED:

To provide a tape for a label writer adapted to an ink jet system and excellent in environmental or strength such as scratch resistance, water resistance or weatherability and having storage stability preventing fading over a long time and keeping high image quality.

SOLUTION: An ink receiving layer composed of a boehmite porous layer and a polymeric porous layer containing one or more kinds of a compd. selected from among a group consisting of dithiocarbamate, thiocyanate and a hindered amine formed on a base material tape.
